

GXT 111

Good morning, ladies and gentlemen.

Welcome to this presentation of GXT 111. Our company is proud to launch a new mouse. Here is our latest creation: GXT 111.

As you can see, it is black and it can reach up to 2500 DPI. The logo on this mouse will light up depending on the DPI used. It comes in different colours and it has 7 buttons. It is handy, practical, lightweight, and very simple to use.

We are offering this incredible mouse at the promotional price of 20€.

Let me sum up by saying that this new mouse is easy to use. It is suitable for the whole family and businessmen, and its price makes it very competitive on the market.

Our brochures are on the table and our price list is on our website: www.GXTmouse.com.

Thanks very much for listening.
