

Wayfarer Leather Sunglasses

Good morning ladies and gentlemen,
on behalf of Ray-Ban, I wish to welcome you to today's
presentation of our latest product.

It is a pleasure to present this incredible product. Ray-Ban has
invested a lot on its quality.
I'm talking about the new Ray-Ban Wayfarer Leather sunglasses.
They come directly from Italy!

But let's talk about them:

Ray-Ban Wayfarer Leather sunglasses are a new edition of the iconic Wayfarer glasses. They were
created in 1952 and they have an exclusive style.

Ray-Ban has decided to invent a new style and produce them in Italy, specifically in Tuscany, which
is a world-leader in the production of leather goods.

These sunglasses are the perfect combination of tradition and style. They are elegant, practical
and trendy. Their frame is in strong plastic that makes this product robust and resistant.

Their lenses come in 3 colours: green, brown and black, and their leather is available in 4 colours:
black, brown, bronze and blue.

Wayfarer Leather sunglasses are ideal for trendy people.

We can offer them to you at the
promotional price of £180.

I hope you enjoyed this presentation. Now,
are there any questions?
